vision

In keeping with the overall theme of the renovation and the design team's vision of a sleek, clean, contemporary space, we emphasized geometry, both vertical and horizontal. The original home had a back door leading directly into the family room – not ideal. With the home located in a family neighbourhood, a large mudroom was created to handle the comings and goings of a busy family. We have chosen to combine walnut in a basket weave pattern in order to accentuate the grain and strengthen the detail of the design. Both the mudroom and family room which is equipped with a built-in desk area, are extremely functional while aesthetically pleasing to the eye.
